

CUMULATIVE SUBJECT INDEX

VOLUME 16

* indicates original article

ACNE

—management of adolescent, 208*

ADENOVIRUSES

—childhood infections with, 196*

ADIPONECROSIS SUBCUTANEA NEONATORUM

—discussed, 206*

ADOLESCENTS

—acne management in, 208*

ALBUMIN

—effects on bilirubin levels and occurrence of kernicterus in genetically jaundiced rats, 227

—factors influencing binding of bilirubin by, 227

—protective action of, in bilirubin toxicity in newborn puppies, 227

ASCARIDES

—visceral larva migrans, 5*

AUSTRALIA

—health of children in, 221*

BLOOD

—assistance in rare diseases of, 220

—clotting defect in congenital PTA deficiency, 63

—combined deficiencies of PTA and AHG with vascular fragility, 63

—congenital hypoplastic thrombocytopenia with skeletal deformities in siblings, 125

—effects of transfusions of fresh frozen plasma, with and without platelets, on coagulation mechanism in hemophilic children, 141*

—hemophilia with multiple coagulation defects, 135*

—liver abscess following exchange transfusion in erythroblastosis fetalis, 148*

—pancytopenia with congenital defects (Fanconi's anemia), 124

—plasma thromboplastin antecedent deficiency and its association with pseudohemophilia, 63

—research in hemophilia, 56

—serum cholesterol levels in infancy, 225

—transmission of PTA deficiency, 64

BLOOD VESSELS

—combined deficiencies of PTA and AHG with vascular fragility, 63

—slow onset of vascular complications in early juvenile diabetics, 64

BOOK REVIEWS

—Cancer and Allied Diseases of Infancy and Childhood, 65

—Cellular and Humoral Aspects of the Hypersensitive States, 66

—Clinical Disorders of Hydration and Acid-Base Equilibrium (ed. 2), 129

—Clinical Disturbances of Renal Function, 240

—Toward the Diagnosis of Congenital Heart Disease, 240

—Disease in Infancy and Childhood (ed. 3), 129

—Encyclopedia of Medical Syndromes, 185

—Epidemiologic Methods, 240

—Epilepsy and Related Disorders, 65

—Fundamentals of Clinical Hematology, 185

—Growth Diagrams from 1-25 Years in the Netherlands, 66

—Heinz Handbook (The) of Nutrition, 65

—Hospital Infection: Causes and Prevention, 130

—Immunity and Virus Infection, 66

—Infant Foods and Feeding Practice, 129

—Leukemia, 65

—Medical Almanac 1961/62 (ed. 1), 240

—Merck Index (The) of Chemicals and Drugs (ed. 7), 185

—Metabolic Basis (The) of Inherited Disease, 184

—Mongoloid Baby (The), 65

—Multiple-Choice Examinations in Medicine: A Guide for Examiner and Examinee, 185

—Office Assistant (The) in Medical Practice (ed. 2), 185

—Outline (An) of Chemical Genetics, 185

—Pediatric Neurology, 66

—Pediatric Neurosurgery, 130

—Pediatric Nursing (ed. 4), 184

—Pediatric Pathology, 129

—Plasma Proteins (The): Clinical Significance, 184

—Recent Advances in Clinical Pathology, series III, 184

—Rehabilitation Medicine, 129

—Standards and Recommendations for Hospital Care of Newborn Infants, Full Term and Premature, 66

—Syllabus (A) of Laboratory Examinations in Clinical Diagnosis, 129

—For Young Adults Only: The Doctor Discusses Your Personal Problems, 129

BRAIN

—cerebral complications due to smallpox vaccination in children, 177

CALCIUM

—etiology, manifestations, and management of disorders of calcium metabolism in children, 102*

—Syllabus (A) of Laboratory Examinations in Clinical Diagnosis, 129

—For Young Adults Only: The Doctor Discusses Your Personal Problems, 129

BRAIN

—cerebral complications due to smallpox vaccination in children, 177

CALCIUM

—etiology, manifestations, and management of disorders of calcium metabolism in children, 102*

CELLS

- heterograft and homograft responses of mammalian cells following in vitro cultivation, 14

CHILDREN

- International Children's Centre, 126
- mortality, causes of, in United States, 237
- new assistance to meet world-wide needs of, 180
- role of senses in early parent-child relationships, 71*
- school population, 56

CHOLESTEROL

- serum cholesterol levels in infancy, 225

COCCIDIOIDOMYCOSIS

- soil plot in spread of, 239

CRETINISM

- early recognition of, 230
- familial nongoitrous cretinism apparently due to maternal antithyroid antibody, 234
- maternal autoimmunization to thyroid as possible cause of athyrotic, 234

DIABETES MELLITUS

- slow onset of vascular complications in early juvenile diabetics, 64

DIET

- fluoridated milk for prevention of dental caries in children, 128
- obesity in childhood: controlled trial of phenmetrazine, amphetamine resinate, and diet, 93*

DISINFECTION

- of bedpans, 122
- chemical disinfection in prevention of hospital infections, 121
- of hospital blankets with synthetic phenolic compounds, 122
- of skin, 123

ERYTHROBLASTOSIS FETALIS

- liver abscess following exchange transfusion in, 148*

ERYTHROCYTES

- I^{131} labeled triiodothyronine erythrocyte uptake of mothers and newborn infants, 232
- neonatal thyroid function: triiodothyronine erythrocyte uptake, 232
- possible effect of vitamin K_2 on erythrocyte metabolism, 228

ETHYLENE OXIDE

- in sterilization, 122

EYE

- amblyopia in childhood, 115

FAT

- subcutaneous fatnecrosis of newborn (adiponecrosis subcutanea neonatorum), 206*

FISTULAS

- tracheoesophageal, in Pennsylvania, 86*

GASTROINTESTINAL TRACT

- giardiasis in childhood, 218*
- visceral larva migrans, 5*

GIARDIASIS

- in childhood, 218*

GENETICS

- transmission of PTA deficiency, 64

GLOBULINS

- combined deficiencies of PTA and AHG with vascular fragility, 63

GRAFTS

- heterograft and homograft responses elicited by mammalian cells following in vitro cultivation, 14

HEART

- electrocardiogram in kwashiorkor, 179
- genetic and biochemical implications of congenital disease of, 160
- penicillin prophylaxis for recurrences of rheumatic fever, 54

HEMOPHILIA

- clotting defect in congenital PTA deficiency, 63
- combined deficiencies of PTA and AHG with vascular fragility, 63
- plasma thromboplastin antecedent and its association with pseudohemophilia, 63
- transmission of PTA deficiency, 64

HISTOPLASMOSIS

- lung calcification and, 159

HOSPITALS

- chemical disinfection in prevention of hospital infections, 121
- control of infections in hospital wards, 120
- disinfection of bedpans, 122
- disinfection of hospital blankets with synthetic phenolic compounds, 122
- dry heat sterilization in, 121
- hospital infection—yesterday and today, 119
- surgeon's autoclave, 121

IMMUNOLOGY

- combined immunizations (DTP and poliomyelitis) for pediatric practice, 31
- immunological tolerance in neonatal infection of mice with lymphocytic choriomeningitis virus, 97
- new safeguards for quadruple vaccines, 212
- schedule for active immunization of infants and children, 183

INFANTS—See also *Newborn; Premature Infants*

- infant mortality in United States, 60*
- preferred sites for intramuscular injections in, 56

INFECTIONS

- adenovirus, in children, 196*
- anonymous mycobacteria as cause of, 201*
- chemical disinfection in prevention of hospital infections, 121

- control of infections in hospital wards, 120
- hospital infection—yesterday and today, 119
- rubella and other virus infections during pregnancy, 57

INJECTIONS

- preferred sites for intramuscular, 56

IODINE

- ¹³¹I labeled triiodothyronine erythrocyte uptake of mothers and newborns, 232
- neonatal thyroid function: triiodothyronine erythrocyte uptake, 232
- radioactive iodine concentration in thyroid glands of newborn infants, 231

ISONIAZID

- for children with positive tuberculin reactions, 96

KERNICTERUS

- effect of chemicals on bilirubin levels and occurrence of kernicterus in genetically jaundiced rats, 227
- experiences with, in premature infants, 228
- incidence of, in premature infants, 228
- physiological jaundice re-examined, 229
- sulfisoxazole in neonatal period, effects on premature infants with, 226

KIDNEY

- in childhood anaphylactic purpura, 116
- pathology of, in anaphylactoid purpura, 117

KWASHIORKOR

- electrocardiogram in, 179

LARVAE

- visceral larva migrans, 5*

LEPROSY

- epidemiology of, 115

LEUKEMIA

- atomic bomb blast in Hiroshima and, 54

LIVER

- abscess of, following exchange transfusion for erythroblastosis fetalis, 148*

LYMPHOCYTIC CHORIOMENINGITIS VIRUS

- immunological tolerance in neonatal infection of mice with, 97

METABOLISM

- etiology, manifestations, and management of disorders of calcium metabolism in children, 102*

MONGOLISM

- recent studies and developments in, 150*

MORTALITY

- childhood, causes of, in United States, 237
- infant mortality in United States, 60*

MUSCLES

- effects of stimuli on activity of, 195

MYCOBACTERIA

- infections due to anonymous, 201*

NEWBORN—See also *Premature Infants*

- hyaline membrane disease of lung in, 191*

- ¹³¹I labeled triiodothyronine erythrocyte uptake of, 232
- neonatal thyroid function: triiodothyronine erythrocyte uptake, 232
- radioactive iodine concentration in thyroid glands of, 231
- subcutaneous fat necrosis of, 206*

OBESITY

- in childhood: controlled trial of phenmetrazine, amphetamine resinate, and diet for, 93*

PENICILLIN

- in prophylaxis for recurrences of rheumatic fever, 54

PHENYLKETONURIA

- public health studies in, 200

PIGMENTS

- effect of chemicals on bilirubin levels and occurrence of kernicterus in genetically jaundiced rats, 227
- factors influencing binding of bilirubin by albumin, 227
- physiological jaundice re-examined, 229
- protective action of albumin in bilirubin toxicity in newborn puppies, 227
- toxicity of haeme pigments in different test systems, 226

POISONING

- clinical aspects of salicylate poisoning in children, 43*

POLIOMYELITIS VACCINE

- combined immunizations (DTP and poliomyelitis) for pediatric practice, 31
- status of, in United States, 42

PREGNANCY

- rubella and other virus infections during, 57

PREMATURE INFANTS

- experiences with kernicterus in, 228
- incidence of kernicterus in, 228
- sulfisoxazole in neonatal period, effect on premature infants, 226

PROPHYLAXIS

- chemoprophylaxis of tuberculosis, 53
- of epidemic disease in day nurseries of Department of Seine, France, 178
- penicillin prophylaxis for recurrences of rheumatic fever, 54

PUBLIC HEALTH

- Bronfman Prizes for achievement in, 147
- health of Australian children, 221*
- national health service modeled after British system planned in Turkey, 176

PURPURA, ANAPHYLACTOID

- in children, 116
- pathology of skin and kidney and frequency of streptococcal infection in, 117

RADIATION

- leukemia and atomic bomb blast in Hiroshima, 54
- radiation medicine and pediatrics, 10*
- radiation sterilization, 122

RESPIRATORY TRACT

- bronchiolitis in infancy, 53
- histoplasmosis and lung calcification, 159
- hyaline membrane disease of lung in newborn, 191*
- neonatal asphyxia pallida treated with hypothermia with or without blood transfusion, 177
- tracheoesophageal fistulas in Pennsylvania, 86*

RHEUMATIC FEVER

- penicillin prophylaxis for recurrences of, 54

RUBELLA

- rubella and other virus infections during pregnancy, 57

SALICYLATES

- clinical aspects of salicylate poisoning in children, 43*

SENSES

- role of, in early parent-child relationships, 71*

SKELETON

- congenital hypoplastic thrombocytopenia with skeletal deformities in siblings, 125

SKIN

- disinfection of, 123
- pathology of, in anaphylactoid purpura, 117

SMALLPOX

- cerebral complications following vaccination against, in children, 177

STERILIZATION

- dry heat in, 121
- ethylene oxide in, 122
- radiation sterilization, 122
- surgeon's autoclave, 121

STREPTOCOCCI

- infection with, in anaphylactoid purpura, 117

SULFISONAZOLE

- effects of, on bilirubin levels and occurrence of kernicterus in genetically jaundiced rats, 227
- in neonatal period, effect on premature infants, 226

SULFONAMIDES

- new, in pediatric practice, 213*

TEETH

- advances in knowledge of dental caries, 49*
- fluoridated milk for prevention of dental caries in children, 128

TEMPERATURE

- neonatal asphyxia pallida treated with hypothermia with or without blood transfusion, 177
- uses of induced hypothermia, 169*

THROMBOPLASTIN

- clotting defect in congenital PTA deficiency, 63

- combined deficiencies of PTA and AHG with vascular fragility, 63

- plasma thromboplastin antecedent deficiency and its association with pseudohemophilia, 63

- transmission of PTA deficiency, 64

THYROID GLANDS

- early recognition of cretinism, 230
- familial nongoitrous cretinism apparently due to maternal antithyroid antibody, 234
- ¹³¹I labeled triiodothyronine erythrocyte uptake of mothers and newborn infants, 232
- immunologic and thyroid function studies in euthyroid children with goiter, 233
- maternal autoimmunization to thyroid as possible cause of athyrotic cretinism, 234
- neonatal thyroid function: triiodothyronine erythrocyte uptake, 232
- radioactive iodine concentration in thyroid glands of newborn infants, 231

TOXICITY

- of haeme pigments in different test systems, 226
- protective action of albumin in bilirubin toxicity in newborn puppies, 227

TRANSFUSIONS

- effects of transfusions of fresh frozen plasma, with and without platelets, on coagulation mechanism in hemophilic children, 141*
- liver abscess following exchange transfusion for erythroblastosis fetalis, 148*
- neonatal asphyxia pallida treated with hypothermia plus, 177

TUBERCULOSIS

- chemoprophylaxis of, 53
- control of, in adolescence, 177
- isoniazid for tuberculin reactors, 96

TUMORS

- heterograft and homograft responses elicited by mammalian cells following in vitro cultivation, 14
- sacrocoxygeal, in newborn, 178

URINARY TRACT

- infections of, in infants, 179

VIRUSES

- PHS support of antiserum program for identification of, 114
- rubella and other virus infections during pregnancy, 57

VITAMINS

- possible effect of vitamin K₂ on erythrocyte metabolism, 228

YELLOW FEVER

- mosquitoes carrying, in Western Hemisphere, 205
